

Instalacion de R (windows)

R: <https://cran.r-project.org/bin/windows/base/>

Rstudio:

<https://rstudio.com/products/rstudio/download/#download>

Instalacion de R (Linux)

R y Rstudio:

- 1) `sudo apt update && sudo apt -y install r-base`
- 2) `sudo apt install gdebi-core` (esta línea solo si no tienes instalado el paquete gdebi)
- 3) `sudo gdebi rstudio-xenial-1.1.456-amd64.deb`
